Re: Certification Letter – Buy American Act and the Buy American Provisions of the American Recovery and Reinvestment Act of 2009

Dear Valued Customer:

America is known for its long history of manufacturing excellence. That tradition continues with Mission Solar Energy LLC (“Mission Solar”).

Mission Solar certifies that its 60 Cell PERC Black SX5T; 66 Cell PERC Black SX5R; 60 Cell PERC White SR8K; 72 Cell PERC SX6W and SX6Z photovoltaic modules (the “Modules”) each qualify as a domestic end product under the Buy American Act, 41 U.S.C. § 8301 *et seq.*, and that Mission Solar considered components of unknown origin to have been mined, produced, or manufactured outside the United States. Mission Solar also certifies that the Modules each meet the requirements of the Buy American provisions of the American Recovery and Reinvestment Act of 2009, Section 1605 of Pub. L. 111-5.

Mission Solar proudly manufactures the Modules at its facilities located in San Antonio, Texas.

Sincerely,

A handwritten signature in blue ink, appearing to read "Paul Mutchler".
