Re: Certification Letter – Buy American Act and the Buy American Provisions of the American Recovery and Reinvestment Act of 2009

Dear Valued Customer:

America is known for its long history of manufacturing excellence. That tradition continues with Mission Solar Energy LLC (“Mission Solar”).

Mission Solar certifies that its 66 Cell PERC Black SX9R; 72 Cell PERC SX9W and SX9Z photovoltaic modules (the “Modules”) each qualify as a domestic end product under the Buy American Act, 41 U.S.C. § 8301 et seq., and that Mission Solar considered components of unknown origin to have been mined, produced, or manufactured outside the United States. Mission Solar also certifies that the Modules each meet the requirements of the Buy American provisions of the American Recovery and Reinvestment Act of 2009, Section 1605 of Pub. L. 111-5.

Mission Solar proudly manufactures the Modules at its facilities located in San Antonio, Texas.

Sincerely,

A handwritten signature in blue ink, appearing to read "Paul Mutchler", is written over a light blue circular stamp.
