

Positive Power Tolerance 0 to +3%

BEST-IN-CLASS WARRANTY

Degradation guaranteed not to exceed 1% in year 1 and 0.45% annually from years 2 to 30 with 86.0% capacity guaranteed in year 30. For more information, visit www.missionsolar.com/warranty

American Solar Built for the Long Haul

Mission Solar Energy, headquartered in San Antonio, Texas, offers highquality, American-made solar modules designed specifically for residential and commercial rooftops. Engineered for maximum efficiency and durability in real-world conditions, our modules combine sleek aesthetics with best-in-class performance to power homes and businesses for decades to come.

America's Module Company®

High Power Output

- Achieves 22.3% efficiency with advanced high-density interconnect technology
- Multi-busbar design improves current flow and reduces resistance for better energy

Built for Tough Conditions

- Enhanced cell processing and material control for longterm durability
- Resists corrosion and degradation in harsh environments —salt spray, ammonia, sand, humidity, and high heat
- Certified for 5400 Pa front load and 5400 Pa back load for mechanical strength

More Energy, More of the Time

- Proven performance in low light and at challenging angles, verified by third-party testing
- Specialized glass design maintains output even in cloudy or shifting weather
- Low temperature coefficient (-0.29%)
